

SUPERTURISMO GT New GRIGIO CORSA finishing

SUPERTURISMO GT is the iconic wheel of the racing world, and needs no introduction. In the Race White version, it can be found on 90% of the WRC world rally team vehicles.

Given the degree of international success it has achieved, and considering the clamorous demand from fans, OZ has decided to offer the SUPERTURISMO GT in the all-new RACE GRAY finishing in 2013.

SUPERTURISMO GT is the wheel of choice for anyone ready to make a technical or stylistic upgrade to a compact sports vehicle like the VW GOLF and POLO, PEUGEOT 206/307, ALFA 147, CITROEN C3 or RENAULT CLIO, and many others.

The OZ logo, pad-printed in black, characteristic multi-spoke design (the most-copied in the world) and unmistakable carbon fiber center cap all add distinctive features to a wheel that is already number 1 on race tracks around the world.

SUPERTURISMO GT is available in 14", 15", 16", 17", 18", 19" diameters and grigio corsa finishing + black lettering or MATT BLACK + red lettering.

Like all OZ wheels, the SUPERTURISMO GT is TÜV certified. Always ask your tire dealer for certification of the wheels you are about to purchase, don't settle for less than total safety.
